

Engineering Memo Report

Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database.

engineering design fundamentals incorporates much of the material covered in contemporary "mini" design books, which are almost exclusively devoted to design methodology. Engineering Design, however, also includes topics such as engineering economics, project planning, professional and social context of design, and optimisation. New concepts are often introduced by posing a design problem, thus emphasising a more applied approach to the course.
