

High Blood Pressure Solution Burge

Liefde, passie en romantiek voor alle fans van Nora Roberts Vier vriendinnen runnen samen een bedrijfje als weddingplanners, maar ze hebben nauwelijks tijd om de liefde in hun eigen leven toe te laten. Laurel, de bruidstaartenbakker van Vows, is een vrouw die hard heeft moeten vechten om te komen waar ze is. Ze heeft geen bescherming nodig, en al helemaal niet van de broer van haar vriendin en collega Parker. Passie en hartstocht wil ze, maar hoe moet ze hem dat duidelijk maken?

Written by a team of nurses experienced in providing, supporting and developing high dependency care, this book discusses practical issues and explores the current evidence base for clinical practice. It covers all important skills needed and best practice for caring for high dependency patients or undertaking post registration courses to prepare them for high dependency nursing. Structured in four parts, the first, 'Perspectives on High Dependency Care' explores the contest of care, focusing on fundamental aspects like sleep, nutrition, pain management and stress, demonstrating how to achieve quality nursing care. 'Pathophysiology and Treatments' describes the main diseases that cause critical illness and treatments that patients will often be given. 'Monitoring and Skills' enables nurses to interpret and understand the information gained from observation and monitoring. The final part, 'Professional Issues' explores topics like clinical governance, reflection, practice development and managing change to assist nurses in developing their own clinical practice and professional development.

Gynecologic and obstetric surgery is a craft that requires sound knowledge and skills. The specifics of each individual case must be understood to enable the best surgical management approach and to minimize complications. This resource book offers insightful management options to many of the challenges a gynecologic or obstetric surgeon may face before, during and after an operation. Divided into two sections, the book first covers general preoperative, intraoperative and postoperative challenges and, second, specific surgical procedures. It provides advice on both general gynecologic and obstetric operations, as well as subspecialist areas such as reproductive surgery, urogynecology and gynecologic oncology. The chapters are concise, beginning with illustrative case histories followed by background, management options, and any preventative approaches. Designed to guide the surgeon to safe practice throughout all stages, they offer practical and step-by-step help.

Eerst maakte de mens schulden, toen pas maakte hij het geld. In tegenstelling tot wat de wetenschap altijd dacht, betoogt David Graeber dat schuld al bestond ver voordat geld en munten werden uitgevonden en dat de mens al 5000 jaar sterker nog: schuld en de kwijtschelding daarvan hebben ons morele besef gevormd - het woord 'schuld' werd al vanaf het begin in zakelijke én in religieuze zin gebruikt. Slavernij, geweld, oorlogen en opstanden: ze hangen samen met ideeën die bestudeert Graeber onze opvattingen over beloftes, krediet en afbetaling, van de vroegste beschavingen tot het moderne kapitalisme. Hij analyseert helder en buitengewoon leesbaar hoe de wereldeconomie zich heeft ontwikkeld - en werpt economische crisis. Dit boek is nu al een klassieker.

Identifies thousands of prescription drugs, and provides information on ingredients, purpose, usage, precautions, side effects, and dosages

Hoe kunnen wij de mensen in onze samenleving ertoe brengen om de juiste keuzes te maken, keuzes waardoor ze gezonder en gelukkiger worden en waardoor ze over meer welvaart en vrijheid beschikken? We kunnen mensen met zachte hand leiden, zonder hen te beperken in hun keuzevrijheid. Bijvoorbeeld door in schoolkantines gezonde voeding op ooghoogte te zetten, of door meer betrokkenheid bij pensioenen te creëren door sommige spaarplannen opt-out te maken in plaats van opt-in. Dit boek is in 2008 heeft het boek veel tweegebracht. Thaler en Sunstein zijn adviseurs geworden van de regering van Barack Obama. David Cameron heeft het boek required reading gemaakt voor al zijn partijgenoten. Dit boek toont op baanbrekende wijze hoe kleine, eenvoudige veranderingen grote impact kunnen hebben.

Frustrated by All the Advice for Finding Mr. or Mrs. Right? Some worldly "experts" may sound sexy but don't offer the spiritual tools you need to address the real-life pains, temptations, and fears associated with the dating experience. Quickie solutions won't cut it, and neither will a wait-and-see approach. You want God's views--His rules for becoming and attracting a lifelong mate. This book offers the answers you've been seeking. ·Rule 1: Make Sure Your Map Isn't Upside Down (Get a clue about what real relationships are about, for your own sake!) ·Rule 5: Clean House (If your internal house is dirty, how can you invite folks to come live with you?) ·Rule 6: Put the Kingdom Above the Booty (God's not getting relationship rules from Sex and the City, so why are you?) ·Rule 11: Stop Looking Back (Crying about what could've been keeps you from what can be.) ·Rule 15: Handle the Heat (Learn how to tame the fire, or get out of the kitchen.) ·Plus eleven more rules for avoiding relationship disasters. Using wit, straight talk, and real-life illustrations, His Rules explores relationship guidelines singles can follow as they seek out lifelong love. These no-nonsense relationship rules will equip you to get closer to God, challenge you to clean up your act in preparation for a mate, and give you the savvy you need to distinguish a godly mate from an imposter. Because when you commit to following God's guidance, your relationship will not only work--it will last.

The second edition of Paediatric Surgery has been designed to be highly relevant to the practice of clinical paediatric surgery. With this in mind, topics are presented in a clear and easily digestible format, with the most important learning points in each area clearly identified. The principles of the basic sciences, and how these relate to competent clinical practice, are covered in each clinical chapter, and are an important part of the Intercollegiate Board examination and other higher examinations in paediatric surgery in Europe and Australasia. While many of the topics from the previous edition have been retained and updated as appropriate, there are a number of important additions. The important and developing field of minimally invasive surgery has been given more prominence. Oncology has been expanded to include more detail on solid tumours as well as more on central venous access and the surgical assessment of the acutely unwell child undergoing chemotherapy. Thoracic surgery has been expanded to include the management of empyema and the open and endoscopic approach to resection and biopsy. Finally, important 'generic' issues such as communication skills, the critical analysis of journal articles and evidence-based medicine have all been introduced. The second edition of Paediatric Surgery will be an invaluable resource for all trainee paediatric surgeons, providing a summary of practical, evidence-based advice for the candidate for the Intercollegiate Board Speciality Examination in Paediatric Surgery (FRCS Paeds), or other equivalent examination, without overwhelming and unnecessary detail.

High Pressure Effects in Molecular Biophysics and Enzymology is designed to acquaint biochemists, biophysicists, and graduate students with advances in the application of high pressure in connection with spectroscopy as a research tool in the study of biomolecules. The 23 chapters written by leading authorities present an overview of current approaches to the use of high pressure in research on enzyme kinetics, protein folding and structure, lipid bilayer structure and organization, lipid-protein interaction, and DNA structure. This important, timely volume is the first devoted exclusively to high-pressure effects in biochemistry and will be the definitive reference in its subject for the next several years.
