Squid Ink Classics are like Sparknotes for citations - the best secondary source citations you can find anywhere, all compiled by professional librarians to help students with their research needs.

The Grammar of Criminal Law is a 3-volume work that addresses the field of international and comparative criminal law, with its primary focus on the issues of international concern, ranging from genocide, to domestic efforts to combat terrorism, to torture, and to other international crimes. The first volume is devoted to foundational issues. The Grammar of Criminal Law is unique in its systematic emphasis on the relationship between language and legal theory; there is no comparable comparative study of legal language. Written in the spirit of Fletcher's classic Rethinking Criminal Law, this work is essential reading in the field of international and comparative law.

Love at first cite. Having trouble finding scholarly sources for your research paper? This Squid Ink Classic includes the full text of the work plus MLA style citations for scholarly secondary sources, peer-reviewed journal articles and critical essays for when your teacher requires extra resources in MLA format for your research paper. Why spend more time looking for your sources than writing your paper? Work smarter not harder with Squid Ink Classics. The smart way to do homework.

Bibliographic data for citations made by researchers from 108 eligible countries for each year from 2000-2007 were downloaded from the Science Citation Index and the Social Science Citation Index. The citation data were matched against HINARI and AGORA title lists in a database developed for this purpose. The frequency of citations made to journals in the AGORA and HINARI collections and the annual percent change in the frequency of these citations were analyzed for suggestions that the programs positively impacted the scholarly use of the journals by these researchers.

Perfect for when your teacher requires you to provide scholarly articles and cite your sources in MLA format for your research paper.

Honderdduizend jaar geleden leefde de Homo sapiens nog een tamelijk onbekommerd bestaan in een uithoek van het Afrikaanse continent en deelde hij de planeet met ten minste vijf andere menssoorten. Maar op een zeker moment onderging het brein van deze mens een ingrijpende verandering: nu kon hij zich plots verbeelden dat het gras elders wel eens groener zou kunnen zijn, en dus maakte hij zich op om de wereld te veroveren. In Sapiens neemt Yuval Noah Harari ons mee op een fascinerende reis door de geschiedenis van de mensheid. Wie zijn we? Waar komen we vandaan? En hoe zijn we zo geworden als we nu zijn? In zijn aanstekelijke relaas laat Harari ons kennismaken met het meest dominante wezen op aarde: de mens.

This Squid Ink Classic edition of A Christmas Carol includes the full text of the work plus MLA style citations for scholarly secondary sources, peer-reviewed journal articles and critical essays for when your teacher requires extra resources in MLA format for your research paper.

Provides information on stylistic aspects of research papers, theses, and dissertations, including sections on writing fundamentals, MLA documentation style, and copyright law.

Tijdens een stormachtige nacht wordt Lockwood gedwongen onderdak te zoeken in het spookachtige landhuis van zijn verhuurder: Woeste Hoogten. Daar hoort hij het verhaal van de vurige, gedoemde liefde tussen Catherine Earnshaw en de donkere en mysterieuze Heathcliff. Emily Jane Brontë (1818-1848) is dankzij Woeste Hoogten waarschijnlijk de bekendste van de drie Brontë-zussen, hoewel niet degene die het meest publiceerde. Haar enige roman verscheen in 1847, één jaar voor haar dood, en geldt als een van de eerste gothic romans en een van de grootste klassiekers aller tijden.

This Squid Ink Classic edition of The Red Badge of Courage includes the full text of the work plus MLA style citations for scholarly secondary sources, peer-reviewed journal articles and critical essays for when your teacher requires extra resources in MLA format for your research paper.

In de romans van Nobelprijswinnaar Albert Camus wordt het absurde van de twintigste-eeuwse samenleving afgezet tegen een persoonlijke moraal van vriendschap en menselijkheid. Een of meer personages worden steevast door de loop van gebeurtenissen, nooit uit eigen vrije wil, schuldig aan een misdaad. De kuststad Oran is in de greep van de pest. De slachtoffers sterven een snelle en vreselijke dood, en als gevolg van de quarantaine worden de andere inwoners geplaagd door gevoelens van angst en claustrofobie. Elke persoon reageert verschillend op de dodelijke ziekte: sommigen leggen zich neer bij hun lot, anderen zoeken schuld en wraak. En een paar, onder wie de antiheld dokter Rieux, proberen kost wat kost de terreur te weerstaan. De pest is een meeslepende vertelling over moed en vastberadenheid en de broosheid van het menselijk bestaan.

This book is written for members of the scholarly research community, and for persons involved in research evaluation and research policy. More specifically, it is directed towards the following four main groups of readers: – All scientists and scholars who have been or will be subjected to a quantitative assessment of research performance using citation analysis. – Research policy makers and managers who wish to become conversant with the basic features of citation analysis, and about its potentialities and limitations. – Members of peer review committees and other evaluators, who consider the use of citation analysis as a tool in their assessments. – Practitioners and students in the field of quantitative science and technology studies, informetrics, and library and information science. Citation analysis involves the construction and application of a series of indicators of the ‘impact’, ‘influence’ or ‘quality’ of scholarly work, derived from citation data, i.e. data on references cited in footnotes or bibliographies of scholarly research publications. Such indicators are applied both in the study of scholarly communication and in the assessment of research performance. The term ‘scholarly’ comprises all domains of science and scholarship, including not only those fields that are normally denoted as science – the natural and life sciences, mathematical and technical sciences – but also social sciences and humanities.
