Well-oiled organizations are hitting roadblocks due to unanticipated problems that are slowing down operations. VUCA is affecting organizations like never before - impacting schedules, delaying deliverables, and causing cost overruns. Managing projects has become a nightmare with the uncertainties and ambiguities of business, delaying integration of allied activities, making the project a non-starter even before it gets off the ground. In this VUCA world, it is imperative to confront the volatile, embrace the unknown, conquer the complex, and understand the ambiguous to be able to predict what lies ahead. This book helps managers master the art of dealing with VUCA by providing relatable experiences from the armed forces and advocating the use of RACE methodology. The book suggests disruptive tools and methods, and advises managers on the leadership traits needed for successfully completing projects by cutting losses and preventing chaos. It is a must-read for all managers involved in

operations, supply chain, logistics, and production and manufacturing portfolios. Ex-army personnel who are starting a second career in the corporate/private sector will also greatly benefit from reading this book.

Honderden miljoenen Chinezen maken gebruik van de diensten van Alibaba. De beursgang was een van de grootste ooit. Oprichter Jack Ma vervult met zijn bedrijf een sleutelrol in de consumptie van de snelgroeiende Chinese middenklasse. Hoe is het Jack Ma gelukt om in vijftien jaar tijd een van de grootste internetbedrijven ter wereld op te bouwen? Hoe wist hij zijn eenvoudige afkomst te overstijgen en eerdere mislukkingen te boven te komen? Hoe kijkt de Chinese overheid aan tegen de opkomst van de internetgigant? Duncan Clark, een van de adviseurs tijdens het prille begin van Alibaba, ontmoette Jack Ma voor het eerst in 1999, in het bescheiden flatje waar Ma Alibaba oprichtte. Voor het schrijven van dit boek kreeg Clark toegang tot een schat aan nieuw bronnenmateriaal en kon hij Ma exclusief interviewen. Het resultaat is een gezaghebbend en meeslepend relaas van het ongehoorde succes van Alibaba.
